

Coming for Your Coil/Implant Clinic Appointment

You have booked an appointment in one of our special coil and implant clinics. These clinics are always fully booked and there is a waiting list of patients wanting appointments therefore if you change your mind or cannot attend please let us know as soon as possible, ideally a week before.

Import Things to Remember:-

- If you have been asked to do any tests before hand (swabs or urine) please ensure all samples are handed in with the correct labels and forms you have been given to reception **AT LEAST ONE WEEK** before your appointment. If we have not had results back then we will be unable to carry out the procedure as planned.
- If you are attending to have your coil **REMOVED/CHANGED** please be advised not to have sexual intercourse for **7 DAYS** before the procedure.
- If you are unable to attend your appointment please cancel as soon as possible, ideally **ONE WEEK BEFORE**.
- The treatment room we use for this clinic is small, but we are happy for you to bring **ONE FRIEND/SUPPORTER** with you.

If you have any questions regarding your appointment or the procedure you are booked to have please contact the surgery.
